John Patrick D. Lim

AI ENGINEER | VIRTUAL ASSITANT | ADMINISTRATIVE SUPPORT
jplim2022@gmail.com | +639300916443 | Dasmariñas, Cavite, Philippines

EDUCATION

Bachelor of Science in Information Technology — Dasmariñas, Cavite
Philippine Christian University - Dasmariñas — July 2027 | GWA 2.0

PROFESSIONAL SUMMARY

Virtual Assistant and Software Developer with 4 years of remote work experience in data entry, inventory management, ticket operations, and online research. Skilled in administrative support, data management, and spreadsheet organization, with technical experience in AI-assisted development, full-stack web development, and mobile application development. Familiar with React.js, Laravel, Flutter, .NET, Node.js, SQL, Linux, and Git. Experienced in using AI coding tools to support implementation, debugging, refactoring, documentation, and rapid prototyping. Detail-oriented, adaptable, and committed to delivering accurate administrative work and reliable software solutions.

WORK EXPERIENCE

Administrative & Operations Support
July 2022 – Sept 2026

UbikAnalytic | Remote

- Researched U.S.-based concerts, artists, venues, and schedules, delivering accurate event information to support timely ticket purchasing decisions.
- Executed concert ticket purchases and managed ticket inventory, maintaining accurate availability records and ensuring assigned orders were completed on time.
- Maintained high-volume artist, event, venue, date, and ticket data, improving record accuracy and making information easier to track and retrieve.
- Verified and organized ticket and event information, minimizing data discrepancies and supporting reliable day-to-day ticket operations.

KEY ACHIEVEMENTS

- Developed web and mobile application features using modern frameworks and AI-assisted development tools to support efficient software implementation.
- Applied AI-assisted coding techniques for debugging, refactoring, and rapid prototyping while reviewing and testing generated code.
- Managed data entry, ticket inventory, and event records for U.S.-based concert operations, maintaining accurate and organized information.
- Demonstrated adaptability across technical development and administrative tasks, completing assigned responsibilities independently in a remote work environment.

SKILLS

- Core Skills: Virtual Assistance | Data Entry | Data Management | Ticket Operations | Concert Ticket Purchasing | Ticket Inventory Management | Inventory Tracking | Event Research | Artist Research | Online Research | Data Verification | Spreadsheet Management | Record Keeping | Administrative Support | Remote Work | Attention to Detail | Time Management | AI-Assisted Development | Full-Stack Development | Mobile App Development | Debugging | Software Testing

- Technical Skills: Microsoft Excel | Google Sheets | Google Workspace | React.js | Laravel | Flutter | .NET | Node.js | JavaScript | SQL | Linux | Git | Database Management | AI Coding Tools | Web and Mobile Application Development
